

Date	Session #	Session name	Name	Surname	Title
Sat 13	1	Cooperation	Natalia	Siekiera	Capturing Developmental Dynamics: Exploring Cultural Perspectives on Cooperation through Yurakare Children Observation.
			Timon	Lebaron-Khérif	Exploring Resource Allocation Dynamics in Collaborative Tasks: Insights from Twin Children
	2	Disgust	Natália	Tasso	Differences in blood donor profiles: a comparative study between public and private blood banks
			Cristina	Acedo-Carmona	The influence of social bonds, emotions and personality on punishment attitudes
			Amelia	Ciniawska	Parents are less disgust sensitive than childless individuals, and a child's presence has no effect on disgust sensitivity of a parent
			Iveta	Štolhoferová	Attentional and physiological response to disgust-eliciting stimuli
		Symposium	Elisabeth	Oberzaucher	Change the World with Human Ethology – Science Outside Academia
			Hidenori	Komatsu	Nudging Can be Sophisticated with Evolutionary Insights: From Plastic Recycling to Energy Conservation
			Maryanne	Fisher	Mimicry in Mating: An Analysis of Postural Mirroring in Mating and Non-Mating Contexts
			Pia	Böhm	Ethology as a tool in urban planning
Sun 14	3	Individual Differences	Kathrin	Masuch	How applied ethology helps to change mobility behaviour
			Lucas	Schirmer	Neuroticism, Negative Emotional States, and Food Choice Motivations: A Perspective from Human Ethology
			Nicholas	Gray	Can we quantify loneliness?
	4	Evolutionary Psychiatry	Isabella	Franca Ferreira	Examining Parental Investment Dynamics in Twin Families: Insights from a Triadic Experimental Task
			Nancy	Segal	Twin Research in Naturalistic and Semi-Naturalistic Context
			Mark	Bernstein	Evolution of "Psychiatric Disorders" and an Ethological Approach for Treating Patients with "Psychiatric Disorders"
			Nathan	Pipitone	An adaptationist perspective for trypophobia: Why context matters
	5	Evolution of Art	Lilian	Luchesi	Behavioral and Physiological responses as a function of Dental Anxiety among Brazilian children
			Piotr	Sorokowski	Empirical Verification of Art as an Adaptation Hypothesis: A Case Study of Woodcarvers in Asmat (Papua)
			Jerzy	Luty	The Collector's Hypothesis: Greater Benefits from Art in Sexual Selection for Collectors than for Artists
Marian			Vanhaeren	Preliminary of Ethno-Archaeological Research in the Star Mountains, Indonesia	
Peter			Koutsos	How imitation drives innovation: an experimental study of the cultural evolution of a multi-dimensional artefact	
Mon 15	6	Cultural Variation	Okechukwu	Iroegbu	The Role of Indigenous Knowledge and Folk Narratives in Human/Wildlife Conflict Management
			Kateřina	Fiurášková	Evolutionary perspectives on pregnancy aversions and food taboos
			Michał	Misiak	Unearthing the Foundations: Testing the Universality of Moral Foundations Theory in Three Non-Industrialised Populations
	7	Behavioral Immune System	Daniel	Frynta	Fear of Snakes in the Cradle of Humankind: vipers vs cobras
			Kiriakos	Chatzipentidis	Adaptive significance of epidemic stories as a protection of indigenous peoples against infectious diseases
			Eva	Landová	The imprint of ancestral and modern threats in the human mind - the experience of fear, disgust and anger.
			Craig	Roberts	Does triggering the behavioural immune system influence spatial proximity?
	8	Facial Perception	Ian	Stephen	Do stereotypes shape our perceptions of men and women? A large cross-cultural study
			Amanda	Hahn	The impact of facial malformations on visual attention to infant faces
			Francesca	Messina	The prosocial effects of watching eyes extend to shopping cart return behavior
Tue 16	9	Romantic Relationships	Marta	Kowal	The interplay between romantic love and culture and environment: Data from 61,065 individuals from 82 countries
			Ana Maria	Fernandez	Insights from jealousy non-verbal expressions for improving interpersonal relationships
			Kraig	Shattuck	Proximity and touching: Observational research on mate guarding in humans
	10	Hormonal Influences	Tara	DeLecece	Ejaculate Adjustment in Response to Sperm Competition Risk in Humans
			Jessica	Marino	Does Estradiol Potentiate the Anxiolytic Effects of Oxytocin in Females and Males Following Intrasexual Competition?
			Nathan	Boone	Testosterone reactivity and parental care motivation in men as a function of parental status
			James	Roney	Do women's body odors reveal their ovulatory timing?
	11	Social Cognition	Wulf	Schiefenhövel	Universal Emphronesis/ToM as shown in the life and language of the Eipo, Mountain Papuans of West-New Guinea
			Rebecca	McGrath	Nosewitness identification: a replication study
			Chad	Hinojosa	Uncertainty Reduction as an Underlying Motive for Optimal Distinctiveness
			Jitka	Lindová	Social networks in children from preschool to adolescence, based on behavioral observation and peer nomination methods
Sun 14	Posters	1	Rafael	Ricciardi de Albuquerque	Establishment of friendships among Brazilian twin children: Differences as a function of sex and dependence
		2	Lucas	Schirmer	Extraversion, Well-being, and Food Choice Motivations: An Evolutionary Perspective.
		3	Hidenori	Komatsu	Boosting nudging effects by messenger impression to promote carbon recycling technologies
		4	Lucas	Aguiar de Moura	Impact of Resource-Limited Gestations on the Physical Development of Brazilian Twin Children: A Study of Zygosity and Chorionicity

5	Maria	Barbato Epple	How is love related to jealousy?
6	Pia	Böhm	Rethinking Behavioural Observations – a direct comparison of sampling method performance
7	Bel	CZ	Jealousy in the digital age and sexual differences, new perspectives in the Chilean population
8	Maria	Barbato Epple	Is annoyance related to jealousy evoked using an allocation game?
9	maryanne	fisher	Investigations into Co-wife Aggression and Competition Across Cultures
10	Theresa	Stürmer	Does Surviving Pain Lower your Risk Avoidance? REVISITING THE FIVE FINGER DISCOUNT: SHOPLIFTING AS A REPRODUCTIVE STRATEGY FOR INCREASING
11	Shairy	Jimenez Delgado	MATE VALUE
12	Craig	Roberts	Necks of kin: discriminating relatedness using odour
13	Caitlin	Harp	How does postpartum depression affect responses to infant cues? (preregistered project proposal)
14	Povheng	Yam	Individual Differences in the Coordinated Behavioural and Physiological Immune Response to Pathogenic Threat
15	Juergen	Riedelsheimer	The effects of cleft lip/palate and subsequent repair on the processing of infant faces
16	Adnan	Alyan	Reduced Reliance on Configural Processing for Infant Faces: Evidence from the Thatcher Illusion
17	Alice	Zhang	How does cute baby stimuli affect prosocial behavior via donations in an ethological setting?
